

Creative SBS A255 Speaker

2.1 Speaker System

2.1 speaker system for music, movies or games. Connect it to your desktop and mobile devices for a pleasant audio experience.

ENJOY IMPRESSIVE 2.1 SOUND WITH SOLID BASS

Big sound from a compact system

The speaker system's satellites feature the Creative DSE design, which enables them to achieve louder and deeper playback even when constrained to a compact housing. This is made possible by separating the port tube into two separate slots and reconstructing them to fit into a tight enclosure. Their space-saving size allows for easy and versatile placement anywhere in the home.

Enjoy natural sounding audio

The newly-improved Creative IFP design features an extended flare surrounding the satellite driver to provide an even wider acoustic sweet spot. This improves sonic directivity to the listening area, giving music more focus while preserving tonal accuracy

Largest-in-class, down-firing subwoofer

The system's largest-in-class, down-firing ported subwoofer delivers impressive bass for that extra oomph in your music.

TAKE CONTROL OF YOUR AUDIO

Convenient controls

The ON/OFF switch integrated with volume control is conveniently located on the satellite for easy access.
